

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

### Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

### About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. You can search through the full text of this book on the web at <http://books.google.com/>

## THE CAPITOL.

The Capitol is situated in latitude  $38^{\circ} 53' 20.4''$  north and longitude  $77^{\circ} 00' 35.7''$  west from Greenwich. It fronts east, and stands on a plateau 88 feet above the level of the Potomac.

### ORIGINAL BUILDING.

The southeast corner stone of the original building was laid on the 18th of September, 1793, by President Washington, with Masonic ceremonies. It is constructed of sandstone from quarries on Aquia Creek, Virginia. The original designs were prepared by Dr. William Thornton, and the work was done under the direction of Stephen H. Hallet, James Hoban, George Hadfield, and B. H. Latrobe, architects. The north wing was finished in 1800 and the south wing in 1811. A wooden passageway connected them. On the 24th of August, 1814, the interior of both wings was destroyed by fire, set by the British. The damage to the building was immediately repaired. In 1818 the central portion of the building was commenced, under the architectural superintendence of Charles Bulfinch. The original building was finally completed in 1827. Its cost, including the grading of the grounds, alterations, and repairs, up to 1827, was \$2,433,844.13.

### EXTENSIONS.

The corner stone of the extensions was laid on the 4th of July, 1851, by President Fillmore, Daniel Webster officiating as orator. This work was prosecuted under the architectural direction of Thomas U. Walter till 1865, when he resigned, and it was completed under the supervision of Edward Clark. The material used in the walls is white marble from the quarries at Lee, Mass., and that in the columns from the quarries at Cockeysville, Md. These extensions were first occupied for legislative purposes January 4, 1859.

### DIMENSIONS OF THE BUILDING.

The entire length of the building from north to south is 751 feet 4 inches, and its greatest dimension from east to west 350 feet. The area covered by the building is 153,112 square feet.

### DOME.

The Dome of the original central building was constructed of wood, covered with copper. This was replaced in 1856 by the present structure of cast iron. It was completed in 1865. The entire weight of iron used is 8,909,200 pounds.

The Dome is crowned by a bronze statue of Freedom, which is 19 feet 6 inches high and weighs 14,985 pounds. It was modeled by Crawford. The height of the Dome above the base line of the east front is 287 feet 5 inches. The height from the top of the balustrade of the building is 217 feet 11 inches. The greatest diameter at the base is 135 feet 5 inches.

The Rotunda is 97 feet 6 inches in diameter, and its height from the floor to the top of the canopy is 180 feet 3 inches.

The Senate Chamber is 113 feet 3 inches in length by 80 feet 3 inches in width and 36 feet in height. The galleries will accommodate one thousand persons.

The Representatives' Hall is 139 feet in length by 93 feet in width and 36 feet in height.

The room now occupied by the Supreme Court was, until 1859, occupied as the Senate Chamber. Previous to that time the court occupied the room immediately beneath, now used as a law library.

## LIBRARY OF CONGRESS.

(Capitol Hill. Phone, Main 2727.)

The Library of Congress was established in 1800, destroyed in 1814 by the burning of the Capitol, afterwards replenished by the purchase by Congress of the library of ex-President Jefferson, 6,760 volumes (cost, \$23,950); in 1851, 35,000 volumes destroyed by fire; in 1852, partially replenished by an appropriation of \$75,000; increased (1) by regular appropriations by Congress; (2) by deposits under the copyright law; (3) by gifts and exchanges; (4) by the exchanges of the Smithsonian Institution, the library of which (40,000 volumes) was, in 1866, deposited in the Library of Congress with the stipulation that future accessions should follow it. Sixty sets of Government publications are at the disposal of the Librarian of Congress for exchange, through the Smithsonian, with foreign governments, and this number may be increased up to 100. Other special accessions have been: The Peter Force collection (22,529 volumes, 37,000 pamphlets) purchased, 1867, cost \$100,000; the Count de Rochambeau collection (manuscript) purchased, 1883, cost \$20,000; the Toner collection (24,484 volumes, numerous pamphlets), gift in 1882 of Dr. Joseph M. Toner.

Since the removal to the new building the Library has been enriched by a number of special collections. The Prints Division has received the Hubbard collection of engravings, gift in 1898 of Mrs. Gardiner G. Hubbard (her will (1909) stipulated that the income of a fund of \$20,000 be applied to purchase of additional engravings); and the Noyes collection of original drawings, prints, and books of Japanese artists, gift in 1905 of Mr. Crosby S. Noyes. The Prints Division also has the custody of the Garrett collection of 19,113 prints; and the George Lothrop Bradley collection of 1,980 engravings, etc., which, in accordance with his will, is to come into the permanent possession of the Library, subject to the life interest of Mrs. Bradley. The accessions to the Manuscripts Division give it superiority over any other like depository in this country. It now possesses the papers of nine Presidents, namely, Washington, Jefferson, Madison, Monroe, Jackson, Van Buren, Polk, Pierce, and Johnson. Of the papers of American statesmen and politicians there are those of Franklin, R. Morris, Hamilton, Van Buren, Duff Green, Washburne, Clayton, Chase, Breckinridge, Crittenden, McArthur, Allen, Lyman Trumbull; of naval officers, Preble, Perry, Porter, John Paul Jones; of state papers, the papers of the Continental Congress; and in Colonial documentary history, the records of the Virginia Company, Spanish papers from New Mexico and Florida; Philippine and Guam documents. The papers of Chancellor Kent represent the judiciary. In commercial history there are the Ellis papers, 1805-1853; Bourne papers, 1776-1816; Galloway papers (early part of eighteenth century); letters of William Taylor (the latter part of the eighteenth century); of John White, cashier of the Bank of the United States at Baltimore. Here also are the papers of William Thornton and George Watterston, illustrating the history of the District of Columbia. The Stevens Index of MSS. in European archives relating to America, 1763-1783, comprising 180 volumes, giving titles of 161,000 documents, and the transcripts of 10,000 papers relating to the peace of 1783, in 37 large folio volumes, were bought in 1906. Here, also, are over 65,000 folios of transcripts of documents relating to American colonial history in the public archives of Great Britain. The Map Division has acquired the Kohl collection, the manuscript maps of Lord Howe, and many other manuscript maps, which make the collection extremely rich in original maps. The Weber library of Sanskrit literature (3,018 volumes, 1,002 pamphlets), and the Hattala library of Slavic literature (about 1,500 volumes) were bought in 1904.

In 1907 the Yudin collection of Russian works (80,000 volumes) and a Japanese collection (9,000 volumes) were added; and in 1908 the Huitfeldt-Kaas collection of Scandinavian literature containing about 5,000 volumes.

The collection is now the largest on the Western Hemisphere and the third in the world. It comprised at the end of the fiscal year (June 30, 1909) about 1,702,685 printed books and pamphlets (including the law library of 126,816 volumes, which, while a division of the Library of Congress, still remains at the Capitol), 111,343 maps and charts, 501,293 pieces of music, and 303,036 photographs, prints, engravings, and lithographs. Of the printed books, probably one-sixth are duplicates not in use.

The Smithsonian deposit is strong in scientific works, and includes the largest assemblage of the transactions of learned societies which exists in this country.

In 1897 the main collection was removed from the Capitol to the building erected for it under the acts of Congress approved April 15, 1886, October 2, 1888, and March 2, 1889, at a cost of \$6,347,000 (limit by law, \$6,500,000) exclusive of the land, which cost

\$585,000. The architects who furnished the original designs were John L. Smithmeyer and Paul J. Pelz. By the act of October 2, 1888, before the foundations were laid, Thomas L. Casey, Chief of Engineers of the Army, was placed in charge of the construction of the building, and the architectural details were worked out by Paul J. Pelz and Edward P. Casey. Upon the death of General Casey, in March, 1896, the entire charge of the construction devolved upon Bernard R. Green, General Casey's assistant, and under his superintendence the building was completed in February, 1897; opened to the public November, 1897. The building occupies  $3\frac{3}{4}$  acres upon a site 10 acres in extent at a distance of 1,270 feet east of the Capitol, and is the largest and most magnificent library building in the world. In the decorations, some forty painters and sculptors are represented—all American citizens. The floor space is 326,195 square feet, or nearly 8 acres. The book stacks contain about 56 miles of shelving, affording space for 2,600,000 octavo volumes. The southeast interior court has been built over as a book stack, with capacity for 940,000 octavo volumes of books on 22 miles of shelves, and 84,000 volumes of newspapers on a similar length of shelves—22 miles.

The Library is maintained by annual appropriations by Congress for various purposes, including the purchase of books. For the year 1909-10 these amounted to \$823,125 (not including allotment for printing and binding, \$202,000), as follows: \$456,125 for services and contingent expenses (including the Copyright Office, and including also the care of the building); \$200,000 toward a new book stack; \$109,500 for books and periodicals (including \$1,500 for new books for Supreme Court); \$32,500 for fuel, supplies, and miscellaneous purposes; \$25,000 for furniture, shelving, etc.

The Librarian of Congress and the Superintendent of the Library Building and Grounds are now appointed by the President of the United States, by and with the advice and consent of the Senate (act of 1897). The employees of the Library are appointed by the Librarian under the act of 1897, which provides that they shall be appointed "solely with reference to their fitness for their particular duties."

The President, Vice-President, Senators, Representatives, and Delegates in Congress are entitled by statute to draw books for home use (though no books can be given out on the orders of Members in favor of those who are not Members). The same privilege is extended by statute to Justices of the Supreme Court, the heads of the Executive Departments, and certain other officials.

*Inter-library loans.*—While not a lending library, but a reference library primarily and essentially, the Library of Congress maintains an inter-library loan system, by which special service is rendered to scholarship by the lending of books to other libraries for the use of investigators engaged in serious research which it is not within the power or duty of the library in question to supply, and which, at the time, are not needed in Washington.

*Library service.*—Library proper, 239 employees; Copyright Office, 78; distribution of catalogue cards, 23; law indexing, 7; disbursement service and care of building and grounds, 127. Total, 474.

The *publications* issued by the Library are numerous and include:

On July 4, 1901, President McKinley appointed him first civil governor of the Philippine Islands. In 1902 visited Rome at the direction of President Roosevelt to confer with Pope Leo XIII regarding the purchase of so-called "Friars' lands" in the Philippines; reached a general basis for agreement with a committee of cardinals, and returned to the Philippines August, 1902, to resume office of civil governor. January, 1904, returned to United States to become Secretary of War in President Roosevelt's Cabinet, being appointed February 1. #### WHITE HOUSE RULES.

The following rules have been arranged for the conduct of business at the Executive Offices during the winter of 1909-10:

The Cabinet will meet on Tuesdays and Fridays from 11 a. m. until 1 p. m.

Senators and Representatives having constituents whom they desire merely to present to the President will be received from 10 to 10.30 a. m., excepting on Cabinet days.

Senators and Representatives having business to transact will be received from 10.30 a. m. to 12 m., excepting on Cabinet days. In view of the pressure of the appointments at the Executive Offices during the Congressional session it would greatly facilitate matters if the Senators and Members could telephone for an appointment before calling, as many will have first made appointments in this way, and those calling without are therefore necessarily delayed in seeing the President.

Visitors having business with the President will be admitted from 12 m. to 1 p. m. daily, excepting Cabinet days, by appointments previously fixed.

The East Room will be open daily, Sundays excepted, for the inspection of visitors, between the hours of 10 a. m. and 2 p. m.

FRED W. CARPENTER,

### INTERNATIONAL BUREAU OF THE AMERICAN REPUBLICS.

#### "PAN-AMERICAN BUREAU."

The International Bureau of the American Republics was established under the recommendation of the First International American Conference, held in the city of Washington in 1889-90 for the purpose of developing and maintaining closer relations of commerce and friendship between the twenty-one Republics of the Western Hemisphere. It was reorganized by the Second and Third International American Conferences, held in the City of Mexico in 1901, and in Rio de Janeiro in 1906, respectively, and its scope widened by imposing many new and important duties. The International Bureau communicates, through the diplomatic representatives of the several Governments in Washington, with the executive departments of these Governments, and it regularly furnishes such information as it possesses or can obtain on a great variety of subjects to all of the Republics. It is the custodian of

the archives of the International American Conferences, and is especially charged with the performance of duties imposed upon it by these conferences. The International Bureau is sustained by contributions from the American Republics in proportion to their population, and is governed by a board composed of their diplomatic representatives at Washington, and the Secretary of State of the United States, who is *ex officio* its chairman. It is therefore strictly an international institution and not a subordinate Bureau of any one government. Its chief executive officer is the Director, elected by this governing board. It publishes a monthly bulletin containing the latest information respecting the resources, commerce, and general progress of the American Republics, as well as maps and geographical sketches of these countries, handbooks of description, travel, and history, and special reports on trade, tariffs, improvements, concessions, new laws, etc. It also conducts a large correspondence not only with manufacturers and merchants in all countries looking to the extension of Pan-American trade, but with travelers, scientists, students, and specialists for the purpose of promoting general Pan-American intercourse. Another and practical feature of the Bureau is the Columbus Memorial Library, which contains 18,000 volumes relating to the American Republics and is open to visitors for consultation.

### INTERSTATE COMMERCE COMMISSION.

Under "An act to regulate commerce," approved February 4, 1887, as amended March 2, 1889, February 10, 1891, February 8, 1895, the "Elkins Act" of February 19, 1903, and the amending act approved June 29, 1906, the Interstate Commerce Commission is composed of seven members, each receiving a salary of \$10,000 per annum. The regulating statutes apply to all common carriers engaged in the transportation of oil or other commodity, except water and except natural or artificial gas, by means of pipe lines, or partly by pipe line and partly by rail, or partly by pipe line and partly by water, and to common carriers engaged in the transportation of passengers or property wholly by railroad (or partly by railroad and partly by water when both are used under a common control, management, or arrangement for a continuous carriage or shipment). The statutes apply generally to interstate traffic, including import and domestic traffic, and also that which is carried wholly within any Territory of the United States. Only traffic transported wholly within a single State is excepted.

The Commission has jurisdiction on complaint and after full hearing to determine and prescribe reasonable rates, regulations, and practices, and order reparation to injured shippers; to require any carriers to cease and desist from unjust discrimination or undue or unreasonable preference, and to institute and carry on proceedings for enforcement of the law. The Commission may also inquire into the management of the business of all common carriers subject to the provisions of the regulating statutes, and it may prescribe the accounts, records, and memoranda which shall be kept by the carriers, and from time to time inspect the same. The carriers must file annual reports with the Commission, and such other reports as may from time to time be required. Carriers failing to file and publish all rates and charges, as required by law, are prohibited from engaging in interstate transportation, and penalties are provided in the statute for failure on the part of carriers or of shippers to observe the rates specified in the published tariffs.

The Commission also appoints a secretary and clerks, whose duties are not specifically defined by the act.

The act of February 11, 1903, provides that suits in equity brought under the act to regulate commerce, wherein the United States is complainant, may be expedited and given precedence over other suits, and that appeals from the circuit court lie only to the Supreme Court. The act of February 19, 1903, commonly called the Elkins Law, prohibits rebating, allows proceedings in the courts by injunction to restrain departures from published rates, and provides that cases prosecuted under the direction of the Attorney-General in the name of the Commission shall be included within the expediting act of February 11, 1903.

Under the act of August 7, 1888, all Government-aided railroad and telegraph companies are required to file certain reports and contracts with the Commission, and it is the Commission's duty to decide questions relating to the interchange of business between such Government-aided telegraph company and any connecting telegraph company. The act provides penalties for failure to comply with the act or the orders of the Commission.

The act of March 2, 1893, known as the "Safety Appliance Act," provides that railroad cars used in interstate commerce must be equipped with automatic couplers, and drawbars of a standard height for freight cars, and have grab irons or hand holds

in the ends and sides of each car; and that locomotive engines used in moving interstate traffic shall be fitted with a power driving wheel brake and appliances for operating the train-brake system. The act directs the Commission to lodge with the proper district attorneys information of such violations as may come to its knowledge. The act of March 2, 1903, amended this act so as to make its provisions apply to Territories and the District of Columbia, to all cases when couplers of whatever design are brought together, and to all locomotives, cars, and other equipment of any railroad engaged in interstate traffic, except logging cars and cars used upon street railways; and provides for a minimum number of air-braked cars in trains.

The act of June 1, 1898, known as the "Arbitration Act," directs the Chairman of the Interstate Commerce Commission and the Commissioner of Labor to use their best efforts, by mediation and conciliation, to settle controversies between railway companies engaged in interstate commerce and their employees.

The act of March 3, 1901, makes it the duty of every common carrier engaged in interstate commerce to report monthly, under oath, all collisions and derailments of its trains, and accidents to its passengers and employees, and to state the nature and causes thereof. The act prescribes a penalty for failing to make the report so required.

The act of March 4, 1907, makes it the duty of the Interstate Commerce Commission to enforce the provisions of the act wherein it is made unlawful to require or permit employees engaged in or connected with the movement of trains to be on duty more than a specified number of hours in any twenty-four.

The act of May 23, 1908, by section 16 thereof, gives the Interstate Commerce Commission limited control over the street railroads in the District of Columbia.

The act of May 30, 1908, directs the Interstate Commerce Commission to make regulations for the safe transportation of explosives by common carriers engaged in interstate commerce. A penalty is provided for violations of such regulations.

The act of May 30, 1908, makes it the duty of the Interstate Commerce Commission to enforce the provisions of the act wherein it is provided that after a certain date no locomotive shall be used in moving interstate or foreign traffic, etc., not equipped with an ash pan which can be emptied without requiring a man to go under such locomotive. A penalty is provided for violations of this act.

Public resolution No. 46, approved June 30, 1906, and the sundry civil appropriation act of May 27, 1908, direct the Commission to investigate and report on the use and need of appliances intended to promote the safety of railway operation.

The act of March 3, 1909, authorizes the Commission to prescribe the form of book-keeping for District of Columbia gas and electric companies.

## CIVIL SERVICE COMMISSION.

The purpose of the civil-service act, as declared in its title, is "to regulate and improve the civil service of the United States." It provides for the appointment of three Commissioners, not more than two of whom shall be adherents of the same political party, and makes it the duty of the Commission to aid the President, as he may request, in preparing suitable rules for carrying the act into effect. The act requires that the rules shall provide, among other things, for open competitive examinations for testing the fitness of applicants for the classified service, the making of appointments from among those passing with highest grades, an apportionment of appointments in the Departments at Washington among the States and Territories, a period of probation before absolute appointment, and the prohibition of the use of official authority to coerce the political action of any person or body. The act also provides for investigations touching the enforcement of the rules, and forbids, under penalty of fine or imprisonment, or both, the solicitation by any person in the service of the United States of contributions to be used for political purposes from persons in such service, or the collection of such contributions by any person in a Government building.

### CLASSIFIED SERVICE.

There were 367,794 positions in the executive civil service on June 30, 1909, according to statistics based upon reports to the Commission, of which 234,940 were classified subject either to competitive examination under the civil-service rules or to a merit system governing appointments at navy-yards. In the latter class were 15,086 mechanics and skilled workmen. Persons merely employed as laborers or workmen and persons nominated for confirmation by the Senate are exempted from the requirements of classification. Within these limits certain classes of positions are excepted from examination, among them being employees at

post-offices not having free delivery, exclusive of postmasters of the fourth class in Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut, New York, New Jersey, Pennsylvania, Ohio, Indiana, Illinois, Wisconsin, and Michigan who were made subject to examination under an executive order approved November 30, 1908, Indians in the Indian service, attorneys, pension examining surgeons, field deputy marshals, and a few employees whose duties are of an important confidential or fiduciary nature.

#### EXAMINATIONS.

Examinations are held in every State and Territory at least twice a year. The examinations range in scope from technical, professional, or scientific subjects to those based wholly upon the physical condition and experience of the applicant, and in some cases do not require ability to read or write. During the fiscal year ended June 30, 1909, 158,484 persons were examined, of whom 123,449 passed and 40,933 were appointed.

#### FILLING OF VACANCIES.

A vacancy is filled from among the three persons of the sex called for standing highest on the appropriate register, the order being determined by the relative rating, except that the names of persons preferred under section 1754, Revised Statutes, come before all others. Until the rating of all papers of an examination is completed the identity of no applicant is known. A vacancy may also be filled by promotion, reduction, transfer, or reinstatement.

#### VETERAN PREFERENCE.

Persons discharged from the military or naval service by reason of disability resulting from wounds or sickness incurred in the line of duty who receive a rating of at least 65 are certified first for appointment. All others are required to obtain a rating of 70 or more to become eligible. The rule barring reinstatement after a separation of one year does not apply to any person honorably discharged after service in the civil war or the war with Spain, or his widow, or an army nurse of either war.

#### ISTHMIAN CANAL COMMISSION EMPLOYEES.

The examinations for employees of the Isthmian Canal Commission upon the Isthmus extend only to positions of clerk, bookkeeper, stenographer, typewriter, surgeon, physician, trained nurse, and draftsman.

#### PHILIPPINE CIVIL SERVICE.

Appointments to the insular civil service of the Philippines are made under an act passed by the Philippine Commission and rules promulgated by the governor of the islands. The municipal service of Manila is also classified and subject to the provisions of the act and rules, which are similar to those of the United States. The United States Civil Service Commission, under an executive order, assists the Philippine Board by conducting examinations in the United States for the Philippine service and in all other practicable ways. These examinations are held only for positions for which competent natives can not be found, the natives being preferred for appointment.

The transfer is permissible, of classified employees who have served for three years, from the Philippine service to the federal service.

#### CIVIL SERVICE IN PORTO RICO AND HAWAII.

The federal positions in Porto Rico and Hawaii by act of Congress fall within the scope of the civil-service act and are filled in the same ways as competitive positions in the United States. The competitive system does not extend to the insular and municipal positions of Hawaii, but such a system for Porto Rico became effective January 1, 1908.

#### UNCLASSIFIED LABORERS.

Appointments of unclassified laborers in the Departments at Washington and in the large cities under executive order are required to be made in accordance with regulations restricting appointment to applicants who are rated highest in physical condition. The system is outside the civil-service act and rules.

**DEMAND FOR ELIGIBLES WITH CERTAIN QUALIFICATIONS.**

There is an increasing demand for male clerks qualified as stenographers and typewriters, veterinarians, draftsmen of the various kinds, and for civil, mechanical, and electrical engineers; superintendents of construction, computers, and aids in the Coast and Geodetic Survey; also for teachers, matrons, seamstresses, farmers, and physicians in the Indian Service, and for railway mail clerks in most of the Western and some of the Gulf States.

Persons who become eligible in any of the examinations for positions outside of Washington, D. C., which are not apportioned usually have a good chance of appointment. The same is true of those who pass examinations for apportioned positions if they are residents of States or Territories which have received less than their full share of appointments.

A manual containing all information needful to applicants is furnished by the Civil Service Commission upon request.

The decisions of the Board are to be accepted by all the departments of the Government as standard authority.

Advisory powers were granted the Board concerning the preparation of maps compiled, or to be compiled, in the various offices and bureaus of the Government, with a special view to the avoidance of unnecessary duplications of work; and for the unification and improvement of the scales of maps, of the symbols and conventions used upon them, and of the methods of representing relief. Hereafter all such projects as are of importance shall be submitted to this Board for advice before being undertaken.

## ORIGIN AND FORM OF GOVERNMENT.

The District of Columbia was established under the authority and direction of acts of Congress approved July 16, 1790, and March 3, 1791, which were passed to give effect to a clause in the eighth section of the first article of the Constitution of the United States, giving Congress the power—

“To exercise exclusive legislation in all cases whatsoever over such district (not exceeding ten miles square) as may, by cession of particular States and the acceptance of Congress, become the seat of the Government of the United States, and to exercise like authority over all places purchased, by the consent of the legislature of the State in which the same shall be, for the erection of forts, magazines, arsenals, dockyards, and other needful buildings.”

The local government of the District of Columbia is a municipal corporation having jurisdiction over the territory which “was ceded by the State of Maryland to the Congress of the United States for the permanent seat of the Government of the United States.”

This government is administered by a board of three Commissioners having in general equal powers and duties.

Two of these Commissioners, who must have been actual residents of the District for three years next before their appointment and have during that period claimed residence nowhere else, are appointed from civil life by the President of the United States and confirmed by the Senate of the United States for a term of three years each and until their successors are appointed and qualified.

The other Commissioner is detailed from time to time by the President of the United States from the Engineer Corps of the United States Army, and shall not be required to perform any other duty. This Commissioner shall be selected from among the captains or officers of higher grade having served at least fifteen years in the Corps of Engineers of the Army of the United States.

Three officers of the same corps, junior to said Commissioner, may be detailed to assist him by the President of the United States.

The senior officer of the Corps of Engineers of the Army who shall for the time being be detailed to act as assistant (and in case of his absence from the District or disability, the junior officer so detailed) shall, in the event of the absence from the District or disability of the Commissioner who shall for the time being be detailed from the Corps of Engineers, perform all the duties imposed by law upon said Commissioner.

The salary of each of the Commissioners is \$5,000 per annum.

One of said Commissioners shall be chosen president of the Board of Commissioners at their first meeting, and annually and whenever a vacancy shall occur thereafter.

The Commissioners are in a general way vested with jurisdiction covering all the ordinary features of municipal government.

Congress has by sundry statutes empowered the Commissioners to make building regulations; plumbing regulations; to make and enforce all such reasonable and usual police regulations as they may deem necessary for the protection of lives, limbs, health, comfort, and quiet of all persons, and the protection of all property within the District, and other regulations of a municipal nature.

3. Persons employed in the Executive or Legislative Departments of the Government, and persons engaged in other occupations whose chief attention is not given to newspaper correspondence, shall not be entitled to admission to the Press Galleries; and the Press List in the Congressional Directory shall be a list only of telegraphic correspondents.
